SUMMARY

I am a senior Computer Engineering student with experience in web development and artificial intelligence. I have developed projects using Python, Django, JavaScript, .NET, and PostgreSQL technologies. In the TEKNOFEST 2025 Vertical Landing Rocket Project, I was responsible for the software development of the guidance control system, contributing to system modeling, simulation, and implementation of control algorithms. Voluntary projects and accessibility initiatives have strengthened my teamwork and leadership skills.

EDUCATION

Computer Engineering, Manisa Celal Bayar University

Sep 2021 -

GPA: 3.39 / 4.00

WORK EXPERIENCE

Web Developer Intern, Codeco Soft

July 2024 - Nov 2024

- Developed a web-based interface for managing virtual machines using HTML, CSS, JavaScript, and the Django framework.

Guidance Control Lead, Spil Rocket Team, Celal Bayar University

Dec 2024 - Sep 2025

- Responsible for the software development of the guidance control system in the Teknofest 2025 rocket project. Contributed to system modeling, simulation, and implementation of control algorithms.

Intern, Probel Yazılım ve Bilişim Sistemleri A.Ş

July 2025 – August 2025

- Developed an artificial intelligence model for pneumonia detection.
- Worked on medical data using image processing and deep learning techniques.

VOLUNTEER EXPERIENCE

Team Leader, Accessibility Projects Team, MCBU Bilişim Society

Sep 2024 - Sep 2025

- Leading a team to enhance digital accessibility for individuals with disabilities, managing projects focused on optimizing Word and Excel documents for screen reader compatibility.

Python Training – Bilim Yunusemre Center & T3 Foundation

Sep 2024 - Dec 2024

- I provided Python programming language training to high school students. I explained basic Python concepts, helped students improve their coding skills

AWARDS & ACTIVITIES

- 1st Place – Inequality Reduction Ideathon
- 2nd Place – Kodla Manisa "Kodlamayan Kalmasın" Social Responsibility Project

CERTIFICATIONS

- Python for Data Science Training
- Leadership and Innovation in Transformative Technologies Training Program
- Data Science and Machine Learning

ADDITIONAL INFORMATION

- Technical Skills:** Python, Django, ASP.NET Core, HTML, CSS, JavaScript, PostgreSQL, System Programming, Object-Oriented Programming, C, Matlab, Simulink, Data Science, Machine Learning Time Management, Teamwork
- Languages:** English, Turkish
